JOÃO ILDEFONSO DE OLIVEIRA JÚNIOR

JUNIOR SOFTWARE DEVELOPER | IT SUPPORT TECHNICIAN

Dublin, Ireland | +353 83 360 0260 | joao.iseventech@gmail.com
GitHub: github.com/IsevenTech | Portfolio: iseventech.github.io/business-portfolio

PROFESSIONAL PROFILE

Junior software developer with a hands-on background in IT support and computer and mobile-device maintenance. Building practical web and backend projects using JavaScript, React, Python and Go. Brings experience in troubleshooting, device configuration, technical support and customer communication, with a focus on reliable solutions and continuous learning.

TECHNICAL SKILLS

Programming: JavaScript, Python, Go (project-based), Java (foundational)
Web & backend: React, Node.js, Express, HTML, CSS, REST APIs
Tools & practices: Git, GitHub, Linux, API integration, debugging, automation, technical documentation
IT support: Hardware/software troubleshooting, device setup, system updates, computer and mobile-device maintenance, customer support

SELECTED PROJECTS

Go Delivery System | Go, REST API, GitHub
Personal backend project focused on delivery-management workflows and API structure. Demonstrates Go-based application development and API design practice.

Business Portfolio | React, JavaScript, CSS, Vite, GitHub Pages
Responsive portfolio website presenting technical skills and projects; built with React and deployed publicly through GitHub Pages.

Transport Management App | HTML, CSS
Dashboard project concept for managing drivers, vehicles, deliveries and active trips.
